Disclaimer

Important Information

The following notice and disclaimer applies to this investor presentation ("Presentation") and you are therefore advised to read this carefully before reading or making any other use of this Presentation or any information contained in this Presentation. By accepting this Presentation, you represent and warrant that you are entitled to receive this Presentation in accordance with the restrictions, and agree to be bound by the limitations, contained within it. This Presentation is dated May 2026 and has been prepared by Ausgold Limited (ABN 67 140 164 496) ("Ausgold" or "Company"). This Presentation may not be reproduced in whole or in part, nor may any of its contents be divulged to any third party without the prior consent in writing of Ausgold.

The distribution of this Presentation in jurisdictions outside Australia may be restricted by law and you should observe such restrictions. This Presentation has been authorised for release to ASX by the Board of Directors of Ausgold.

Summary information

This Presentation is a summary only and contains summary information about AUC and its subsidiaries and their activities, which is current as at the date of this Presentation (unless otherwise indicated), and the information in this Presentation remains current as at the date of this Presentation (unless otherwise indicated), and the information in this Presentation remains subject to change without notice. The information in this Presentation is general in nature and does not purport to be accurate nor complete, nor does it contain all of the information that an investor may require in evaluating a possible investment in Ausgold, nor does it contain all the information which would be required in a disclosure document or prospectus prepared in accordance with the requirements of the Corporations Act. It has been prepared by Ausgold with due care but no representation or warranty, express or implied, is provided in relation to the accuracy, reliability, fairness or completeness of the information, opinions or conclusions in this Presentation by Ausgold or any other party involved in its preparation.

Reliance should not be placed on information or opinions contained in this Presentation and, Ausgold does not have any obligation to finalise, correct or update the content of this Presentation. Certain data used in this Presentation may have been obtained from research, surveys or studies conducted by third parties, including industry or general publications.

To the maximum extent permitted by law, Ausgold is not responsible for updating, nor undertakes to update, this Presentation. It should be read in conjunction with Ausgold's other periodic and continuous disclosure announcements lodged with the ASX, which are available at www.asx.com.au or <https://ausgoldlimited.com/investor-centre/asx-announcements/>

Not an offer

Neither this Presentation nor any of its contents will form the basis of any understanding, proposal, offer, invitation, contract or commitment. This Presentation does not constitute or contain an offer, invitation, solicitation or recommendation to subscribe for, acquire or sale of any securities in Ausgold), or any other financial products or securities, in any place or jurisdiction. This Presentation is not a prospectus, product disclosure statement or other offering document under Australian law or any other law and will not be lodged with the Australian Securities and Investments Commission. Persons who come into possession of this Presentation should observe any such restrictions as any non-compliance could contravene applicable securities laws.

Not investment advice

Each recipient of the Presentation should make its own enquiries and investigations regarding all information in this Presentation including but not limited to the assumptions, uncertainties and contingencies which may affect future operations of the Company and the impact that different future outcomes might have on the Company and form their own views as to what information is relevant to such decisions and made their own investigations in relation to any additional information. The information in this Presentation does not contain information which would be required in a disclosure document or prospectus prepared in accordance with the requirements of the Corporations Act. This Presentation does not constitute investment or financial product advice (nor tax, accounting or legal advice) or any recommendation to acquire New Shares and does not and will not form any part of any contract for the acquisition of shares. Information in this Presentation is not intended to be relied upon as advice to investors or potential investors and has been prepared without taking account of any person's individual investment objectives, financial situation or particular needs. Before making an investment decision, prospective investors should consider the appropriateness of the information having regard to their own investment objectives, financial situation and needs and seek legal, accounting and taxation advice appropriate to their jurisdiction. The Company is not licensed to provide financial product advice in respect of its securities.

Financial data

All dollar values are in Australian dollars (A\$ or AUD) unless otherwise stated. Amounts, totals and change percentages are calculated on whole numbers and not the rounded amounts presented.

Past performance

Past performance metrics and figures (including past share price performance of Ausgold), as well as pro forma financial information, included in this Presentation are given for illustrative purposes only and should not be relied upon as (and is not) an indication of Ausgold's views, or that of any other party involved in its preparation, on Ausgold's future financial performance or condition or prospects. Investors should note that past performance of Ausgold, including in relation to the historical trading price of Ausgold shares, exploration results, mineral resources and ore reserves, costs and other historical financial information cannot be relied upon as an indicator of (and provides no guidance, assurance or guarantee as to) future Ausgold performance, including the future trading price of Ausgold shares.

Forward looking statements and forecasts

This Presentation contains certain "forward-looking statements" and comments about future matters. Forward-looking statements can generally be identified by the use of forward-looking words such as, "expect", "anticipate", "likely", "intend", "should", "could", "may", "predict", "plan", "propose", "will", "believe", "forecast", "estimate", "target", "outlook", "guidance" and other similar expressions within the meaning of securities laws of applicable jurisdictions. Indications of, and guidance or outlook on, future earnings or financial position or performance, including forecast financial information derived from a production target and technical studies, are also forward-looking statements. You are cautioned not to place undue reliance on forward-looking statements. Any such statements, opinions and estimates in this Presentation speak only as of the date hereof, are preliminary views and are based on assumptions and contingencies subject to change without notice, as are statements about market and industry trends, projections, guidance and estimates. Forward-looking statements are provided as a general guide only.

There can be no assurance that actual outcomes will not differ materially from these forward-looking statements. Any such forward looking statement also inherently involves known and unknown risks, uncertainties and other factors and may involve significant elements of subjective judgement and assumptions that may cause actual results, performance and achievements to be materially greater or less than estimated. These factors include, but are not limited to: the failure to obtain access to land required for development of the Katanning Gold ('KGP') Project; failure to complete and commission the mine facilities, processing plant and related infrastructure in the time frame and within estimated costs currently planned; variations in global demand and price commodities and materials; fluctuations in exchange rates between the U.S. Dollar, and the Australian dollar; the failure of Ausgold's suppliers, service providers and partners to fulfil their obligations under construction, supply and other agreements; unforeseen geological, physical or meteorological conditions; natural disasters or cyclones; changes in the regulatory environment; industrial disputes; labour shortages; political and other factors; the inability to obtain additional financing, if required, on commercially suitable terms; global and regional economic conditions; the recruitment and retention of key personnel, industrial relations issues and litigation. Readers are cautioned not to place undue reliance on forward-looking statements. The information concerning possible production in this announcement is not intended to be a forecast. They are internally generated goals set by the board of directors of Ausgold. The ability of the company to achieve any targets will be largely determined by the company's ability to secure adequate funding, implement mining plans, resolve logistical issues associated with mining and enter into any necessary off take arrangements with reputable third parties. Although Ausgold believes that its expectations reflected in these forward-looking statements are reasonable, such statements involve risks and uncertainties and no assurance can be given that actual results will be consistent with these forward-looking statements, or that Ausgold's business or operations will not be affected in any material manner by these or other factors not foreseen or foreseeable by Ausgold or management or beyond Ausgold's control. Forward looking statements in this announcement speak only at the date of issue. Subject to any continuing obligations under applicable law or the ASX Listing Rules, Ausgold does not undertake any obligation to release publicly any updates or revisions to any forward-looking statements.

Except as required by law or regulation Ausgold undertakes no obligation to finalise, check, supplement, revise or update forward-looking statements or to publish prospective financial information in the future, regardless of whether new information, future events or results or other factors affect the information contained in this Presentation.

JORC Code

It is a requirement of the ASX Listing Rules that the reporting of ore reserves and mineral resources in Australia comply with the Joint Ore Reserves Committee's Australasian Code for Reporting of Mineral Resources and Ore Reserves ("JORC Code"). Investors outside Australia should note that while ore reserve and mineral resource estimates of Ausgold in this Presentation comply with the JORC Code (such JORC Code-compliant ore reserves and mineral resources being "Ore Reserves" and "Mineral Resources" respectively), they may not comply with the relevant guidelines in other countries and, in particular, do not comply with (i) National Instrument 43-101 (Standards of Disclosure for Mineral Projects) of the Canadian Securities Administrators (the "Canadian NI 43-101 Standards"); or (ii) Item 1300 of Regulation S-K, which governs disclosures of mineral reserves in registration statements filed with the SEC. Information contained in this Presentation describing mineral deposits may not be comparable to similar information made public by companies subject to the reporting and disclosure requirements of Canadian or US securities laws.

Mineral Resources, Ore Reserves and Production Targets

This Presentation contains estimates of Ausgold's Mineral Resources, Ore Reserves and production targets and forecast financial information derived from those. The information in this Presentation that relates to Mineral Resources, Ore Reserves and production targets and forecast financial information has been extracted from the Definitive Feasibility Study Update for the KGP as announced on ASX on 16 December 2025. Copies of that announcement are available at www.asx.com.au or <https://ausgoldlimited.com/investor-centre/asx-announcements/>. Ausgold confirms that it is not aware of any new information or data that materially affects the information included in that announcement. All material assumptions and technical parameters underpinning the Mineral Resources, Ore Reserves and production targets and forecast financial information in that ASX announcement continue to apply and have not materially changed. Ausgold confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from those announcements.

Exploration Results

The information in this Presentation that relates to the Company's Exploration Results has been extracted from the Company's previous ASX announcements. Copies of those announcements are available at www.asx.com.au or <https://ausgoldlimited.com/investor-centre/asx-announcements/>. Ausgold confirms that it is not aware of any new information or data that materially affects the information included in this Presentation that relates to the Company's Exploration Results.

Competent Persons' Statements

The information in this Presentation that relates to the Mineral Resource Estimate ('MRE') at the KGP is based on and fairly represents information and supporting documentation prepared by Competent Persons Dr Michael Cunningham of SRK, Mr Daniel Guibal of Condor Consulting Pty Ltd and Mr Graham Conner of Ausgold Limited. Mr Conner who is an employee of Ausgold Limited takes responsibility for the integrity of the Exploration Results, including sampling, assaying, quality assurance and quality control (QAQC), the preparation of the geological interpretations and Exploration Targets. Dr Michael Cunningham takes responsibility for the Mineral Resource estimate for the Datatine (North Zone), Dingo (South Zone), Jackson-White Dam and Olympia (Central Zone) deposits, and Mr Daniel Guibal takes responsibility for the Jinkas-White Dam (Central Zone) deposits. Dr Cunningham and Mr Guibal are Members or Fellows of the Australasian Institute of Mining and Metallurgy. Mr Conner is a Member of The Australian Institute of Geoscientists. Dr Cunningham, Mr Guibal and Mr Conner have sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration, and to the activity they are undertaking, to qualify as Competent Persons as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (JORC Code, 2012 edition). Dr Cunningham, Mr Guibal and Mr Conner consent to the inclusion of such information in this announcement in the form and context in which it appears. The information in this announcement that relates to the Ore Reserves at the KGP is based on and fairly represents information and supporting documentation prepared by Mr Jake Fitzsimons, a Competent Person who is a full-time employee of Orelogy Consulting Pty Ltd. Mr Jake Fitzsimons is a Member of the Australasian Institute of Mining and Metallurgy. Mr Jake Fitzsimons has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which being undertaken to qualify as a Competent Person as defined in the JORC Code, 2012 Edition. Mr Jake Fitzsimons consents to the inclusion of such information in this announcement in the form and context in which it appears.

Delivering WA's next mid-tier gold producer

2.44Moz gold
Resource
with **1.33Moz**
Ore Reserve

Tier-1 jurisdiction
with permitting and
approvals well
advanced

Clear pathway
to **+120kozpa**
production, with
rapid payback

High-margin open
pit project with
strong leverage
to gold price

Initial **10-year**
mine life, with
significant district-
scale upside

3,000km²
landholding
controlling a largely
under-explored
greenstone belt

54,000m multi-rig
drilling program
underway targeting
near-term growth

Multiple **pathways**
to scale: open pit
expansion,
underground and
satellite deposits

Positioned to
transition from
developer to **mid-
tier producer**

The Big Picture

Near-term production set to unlock a district-scale opportunity

From Single Asset to District-Scale Producer

- Established 2.44Moz Resource base forming the foundation of development
- Significant Resource-to-Reserve conversion already achieved (1.33Moz Ore Reserve)
- Rapidly advancing towards initial production in 2028

Long-Term Growth Opportunity

- +3,000km² landholding across the under-explored Katanning Greenstone Belt
- Multiple mineralised trends extending >100km in strike
- Emerging satellite targets with potential to feed Central Processing Hub

Our Strategy

Near-term production set to unlock a district-scale opportunity

Develop

Develop the Katanning
Gold Project as a Central
Processing Hub

Grow

Grow production through
Resource expansion and
satellite discoveries

Build

Unlock a multi-deposit,
multi-decade gold district

Development & Growth Strategy

Path to production with embedded growth pipeline

Development

- Open pit operation with conventional CIL processing
- +10-year initial mine life
- FID targeted: Q4 2026
- First gold targeted: mid-2028

Growth

- Ongoing 54,000m drilling campaign
- High-grade extensions below existing pits
- Underground potential emerging
- Regional exploration targeting satellite deposits

> Production funds exploration
> Exploration extends mine life and scale

Development Metrics – December 2025 DFS Update¹

High-margin, low-risk gold development with strong leverage

Production Profile

143koz pa (first 4 years average)
121koz pa (life-of-mine average)
1.22Moz total gold production

Costs

Competitive AISC with strong
margin at current gold prices
~90% metallurgical recovery

Capital

Initial development capital –
A\$354M (US\$230M)

Returns²

NPV: A\$1.03B – A\$2.30B
IRR: 52% - 92%
Payback: 12-17 months

Highly leveraged to gold price in
a strong gold price environment

¹ For further details, including JORC 2012 and ASX Listing Rule disclosures, refer to ASX announcement of 16 December 2025. The Company confirms that it is not aware of any new information or data that materially affects the information contained in that announcement and that all material assumptions and technical parameters underpinning the estimates in that announcement continue to apply and have not materially changed.

² Low end of ranges at a gold price of A\$4,300/oz, high end at A\$6,400/oz

Clear pathway to a Final Investment Decision in Q4 2026

Development Momentum Building:

- ✓ Final Investment Decision targeted: end-2026
- ✓ Permitting and approvals well advanced
- ✓ Early engineering and long-lead items underway
- ✓ Key project hires completed
- ✓ Accommodation facility construction underway
- ✓ Key contracts out for tender

Key Enablers:

- ✓ Land access secured
- ✓ Community agreements in place
- ✓ Government engagement ongoing

First gold targeted: mid-2028

Key Milestone	CY2026			CY2027				CY2028	
	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2
Accommodation Camp Construction									
Contract Tendering and Early Works									
Permitting									
Engineering									
Final Investment Decision									
Construction									
First gold									

Early Site Works Underway

EPC contract awarded for 250-room Workforce Accommodation Village

Workforce Accommodation

- State-of-the-art 250-room Accommodation Village
- Situated on the outskirts of Katanning
- Long-term lease of land secured with the Shire of Katanning
- Development approval received in April 2026
- Ownership of accommodation village reverts to Shire at the end of the mine life

Construction

- Contract awarded to WA company ADD
- Detailed design work completed, fabrication underway
- \$30.1m development cost consistent with DFS estimate

Timeline

- First 100 rooms and kitchen/mess to be available from mid-September
- Completion and handover scheduled for December 2026, to align with FID

Multi-Rig Growth Drilling Program

54,000m drilling program targeting Resource growth and mine life extensions

Growth Drilling Underway

- Multi-rig campaign with up to five rigs operating
- 33,000m completed to date

Objectives

- Extend mineralisation beyond current pit designs
- Convert Resources to Reserves
- Increase confidence in early production ounces
- Test high-priority regional targets

Key Targeted Outcomes

- Near-term Resource growth
- Longer mine life
- Potential production growth

Disciplined approach to growth ahead of FID

Open Pit Expansion

- Extensions below current pit shells
- Targeting Resource growth, Reserve conversion

Underground Potential

- Testing down-plunge extensions to ~700m depth
- Guided by down-hole electromagnetics (DHEM), which has been effective at identifying gold
- Down-plunge testing of Datatine high-grade shoots, supported by EIS co-funding

Resource In-Fill & Optimisation

- In-fill early mine life zones (Years 1–2) and targeted areas within MRE and LOM pits
- Supports Reserve conversion and mine planning

Oblique view looking SW, displaying grade and the A\$4,500 pit and A\$5,000 pit, drill traces and DHEM plates

Significant recent down-dip extensions

Extensions to Jinkas-White Dam and Jackson mineralisation down-dip of current MRE:

- 14m @ 6.18g/t Au from 181m, incl. 5m @ 16.44g/t Au from 181m in BSRC1811
- 9m @ 2.64g/t Au from 165m in BSRC1935
- 10m @ 2.27g/t Au from 150m, incl. 3m @ 6.59g/t Au from 150m in BSRC1809
- 10m @ 2.24g/t Au from 346m, incl. 2m @ 9.45g/t Au from 346m in BSRC1850
- 12m @ 1.19g/t Au from 76m, incl. 5m @ 2.30g/t Au from 81m in BSRC1953
- 9m @ 1.61g/t Au from 189m in BSRC1908

These intercepts, together with significant results from Dingo in the Southern Zone, demonstrate strong potential for meaningful open pit Resource growth.

In-fill results from the current campaign include:

- **11m @ 7.88g/t Au** from 99m, incl. **2m @ 41.25g/t Au** from 100m in BSRC2022
- **8.0m @ 9.54g/t Au** from 90m, incl. **5.8m @ 13.15g/t Au** from 90m in BSDD050
- **21m @ 3.27g/t Au** from 105m, incl. **14m @ 4.69g/t Au** from 110m in BSRC1978
- **12m @ 5.55g/t Au** from 37m, incl. **9m @ 7.26g/t Au** from 39m in BSRC1961
- **14m @ 3.91g/t Au** from 41m, incl. **9m @ 5.42g/t Au** from 45m in BSRC1956
- **9m @ 2.99g/t Au** from 61m in BSRC1812
- **11.5m @ 2.07g/t Au** from 150m incl. **5.3m @ 4.12g/t Au** from 150m in BSDD053

- Results are overwhelmingly consistent with geological and grade models
- Approximately one-third of holes have returned locally higher grades and/or widths relative to current Resource model
- Identification of higher-grade zones within the DFS pits, combined with conversion of Inferred material to Indicated beneath the pits is expected to enhance and de-risk the production profile in future Reserve updates.

Open Pit Growth and In-fill

Significant recent in-fill results

Significant recent down-dip extensions

Datatine – Northern Zone

- Located 4km north of Central Zone Resource
- Two diamond rigs currently operating
- Hosts some of the highest-grade gold lodes at the KGP, with previous drilling returning:
 - 7.4m @ 4.54g/t from 231.6m (see core photo)
 - 2.7m @ 10.73g/t from 180.2m
 - 3.3m @ 11.47g/t from 218.9m
- EIS funding to drill an additional 120m down-plunge of previous drilling
- Drilling also planned to test ~360m down-plunge beneath the current Open Pit Resource
- Assessing potential to define Underground Resource below Open Pit, complementing a potential Jinkas UG development

Underground Resource Expansion

Jinkas – Central Zone

- RC drilling underway to extend the primary Jinkas lode down-plunge, building on recently reported down-dip extensions
- EIS-funded diamond drilling targeting mineralisation up to ~700m down-plunge of the current Resource, with RC drilling testing extensions further up-plunge

Dominant Regional Position

3,000km² of high-quality exploration tenure

- Ausgold controls almost the entire Katanning Greenstone Belt
- Multiple mineralised trends exceeding 100km in strike
- Exceptional opportunity to discover satellite deposits feeding the Central Processing Facility – key regional trends include:

Stanley Thrust:

- >100km regional structure largely within Ausgold tenure and 25km east of the KGP
- Hosts Nanicup Bridge and Stanley Gold Project
- Strong coherent gold-in-soil anomalies

Yandina Thrust:

- Regionally significant fault system ~75km E and N of the KGP
- Hosts the Griffins Find Gold Mine and Tampia Gold Mine, as well as Ausgold's Kulin Project in the north

Nanicup Bridge

- Located 40km south-east of the KGP
- Host to some of the thickest gold lodes outside the KGP, with intercepts including:
 - **15m @ 1.03g/t from 51m**
 - **25m @ 0.63g/t from 93m**
 - **22m @ 0.62g/t from 73m**
- Also hosts supergene enrichment producing narrower but higher-grade results:
 - **2m @ 23.2g/t from 24m**
 - **3m @ 11.26g/t from 0m**
 - **6m @ 2.98g/t from 15m**
- RC rig recently completed drilling at Nanicup Bridge, aiming to establish a maiden satellite Resource to complement the KGP

Board of Directors

John Dorward
Executive Chairman

+25 years' experience in the mining and financing industries including CEO of Roxgold (2012 to 2021), VP of Fronteer Gold and as CFO of Mineral Deposits and was responsible for financing and construction of Sabodala Gold Project

Adrian Goldstone
Non-Executive Director

Highly credentialed Director with significant international resources experience in development, operations and investment. Managing Director – Technical of minerals industry investment arm of Dundee Corporation (9% shareholder of AUC)

Mark Turner
Non-Executive Director

Mining Engineer with over 35 years' experience in the gold mining sector. Responsible for the development and operation of numerous mines in Australia, Africa and Asia

Paul Weedon
Non-Executive Director

Highly-credentialed geologist with more than 30 years of international mining industry experience in exploration and mine development and operations in Africa, Latin America and Australasia

Ausgold – Key Investment Takeaways

A rare combination of near-term growth potential production and district-scale growth

Development-ready gold project with strong economics

- Clear pathway to production in 2028
- Large-scale exploration upside across 3,000km²
- Active drilling delivering near-term growth
- Strong gold price leverage

Upcoming catalysts

- Final Investment Decision
- Resource growth from drilling
- Transition to producer

Positioned to become Western Australia's next mid-tier gold producer

Transformative Land Acquisitions Pave Way for KGP to Move Forward

- Aug-25 successful resolution of long-running legal action
- Dec-25 DFS Update incorporates additional material now available for mining
- Large land acquisition allows significant flexibility and increases Life of Mine gold production
- Land access has been denied to Ausgold for three years – we now own this land
- Removes a significant impediment to expanding the KGP

Transformative Land Acquisitions Pave Way for KGP to Move Forward

Jul-25

Aug-25

Oct-25

Straightforward project in Tier 1 jurisdiction

- **Project footprint** - designed to minimise clearing of high quality, protected eucalyptus woodland areas situated on the tenements. An integrated waste landform with a lined TSF reduces potential risks associated with the mining infrastructure.
- **State of WA's Priority Approvals Program** - KGP selected for the program on the basis of its regional importance, and is being case managed by the Department of Water & Environmental Regulation.
- **EPBC Act** – KGP's assessment by the Federal department (DCCEEW) will be underway in 2026 as an Assessment of Preliminary Documentation, once additional spring/summer ecological data is collected and analysed.
- **Environmental Protection Authority (EPA)** – the referral for KGP was lodged last month and a determination on the form of project assessment is anticipated before Christmas 2025.
